Student Voice

The class was very interesting! It was very practical because we learned a lot of daily life conversation. I was so happy I used Japanese that I learned at class when I went to beauty shop the other day!

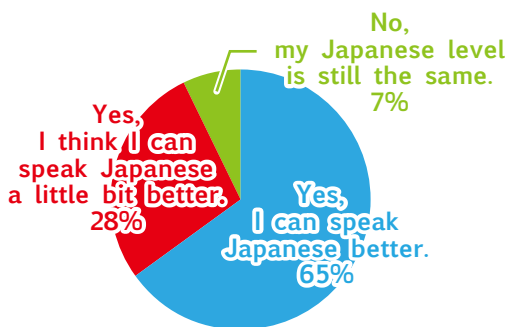

Since memorizing vocabularies by using music and Japanese drama, it is easier to study Japanese. I learned some Kansai-ben (dialect) in the class, so I was able to understand what the shop staff was talking to me when I went shopping.

It was my first Japanese lesson and I was afraid to talk to Japanese people assertively but I got confident because of repeated-training. Now, I have many Japanese friends! I recommend this class!

We interviewed actual students who took Short-term Course.
