The Practical Class!

Beginner I class, Beginner II class

Our original teaching material "AAA" is used in the class! This is an original conversation training where you can study grammar and vocabulary at the same time while using Japanese. Learning through "AAA", you will be able to continue a question-and-answer conversation.

Intermediate-Advanced class

Japanese drama is used for this class in order to build up the technique to listen and understand Japanese by using the daily life in Japanese language. This class use the original material called "Japanese language in drama" and the student use the material while watching real Japanese drama. Also, the original teaching material "3/2/1" is used in this class. This text book enables you to practice to explain in detail on familiar topics such as family and future dreams. To overcome Kansai-ben (Kansai dialect), Kansai-ben classes will also be held so that many international students living in Osaka can overcome the "Kansai dialect wall".

Student Voice

The class was very interesting! It was very practical because we learned a lot of daily life conversation. I was so happy I used Japanese that I learned at class when I went to beauty shop the other day!

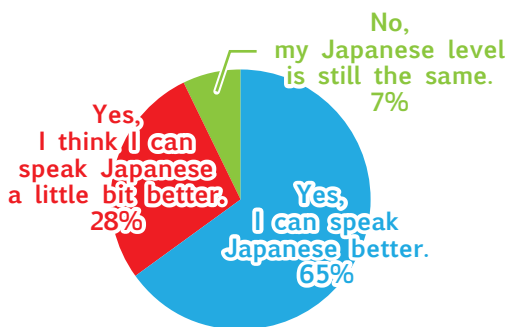

Since memorizing vocabularies by using music and Japanese drama, it is easier to study Japanese. I learned some Kansai-ben (dialect) in the class, so I was able to understand what the shop staff was talking to me when I went shopping.

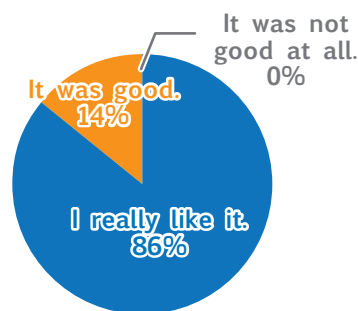

It was my first Japanese lesson and I was afraid to talk to Japanese people assertively but I got confident because of repeated-training. Now, I have many Japanese friends! I recommend this class!

Checkout rave messages from the students actually learned Japanese in the evening course!
