Class Beginner I & II / Intermediate · Advanced

Tuition Fee **3months 186,000yen**

Practical Lessons

We will put in place the same environment as "out of the classroom" and train you to be able to say "I can use" Japanese confidently.

International Exchange Party

Communicate with the Japanese using the Japanese language you learned.

Student Voice

I study while enjoying the Japanese drama, that way, Japanese comes in my head smoothly. The Kansai dialect is also picked up in the lesson, so I was able to understand the meaning when the seniors taught me about work on my part-time job. I have made many Japanese friends now!

Intermediate · Advanced Class

It was my first time studying Japanese, and at first I was afraid to actively talk to Japanese people, but I learned words through music and repeated conversation training, which gave me confidence. Absolutely recommended!
